-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

1. The objection to the drawings has been overcome by the amendment filed July 12, 2006. The objection is withdrawn.

The rejection of claims 9, 10 and 19-22 under 35 U.S.C. 112, first paragraph, has been overcome by the amendment filed July 12, 2006. The rejection is withdrawn

***Claim Rejections - 35 USC § 102***

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 9, 10 and 19-21 are rejected under 35 U.S.C. 102(b) as being anticipated by Nichols (5,217,138).
4. Regarding claims 21 and 22, Nichols discloses a container with a detachable interface (26) having a notch (28), first and second fitment apparatus (Figure 4), the first fitment apparatus being the element 52 with a first opening (55) in a projection (54), the second fitment apparatus being the combination of elements 52 and 62 with a second opening (64) in a projection extending upward from element 62 and the outer perimeter of the first and second fitment apparatus is the same and engages the notch (28) but the outer perimeters of the projections are not equal. The flange is 58. The first fitment apparatus has the same outer perimeter as the second fitment apparatus. The first and second fitment apparatus are interchangeably receivable in the interface and would be capable of connection to different sized hoses or pipes.

5. Regarding claims 9 and 19, the first projection is 54, the flange is 58 and the engagement structure is 60.

6. Regarding claims 10 and 21, the second projection is the upward projection extending from element 62, the flange is 58 and the engagement structure is 60.

### ***Response to Arguments***

7. Applicant's arguments with respect to claims 9, 10 and 19-22 have been considered but are moot in view of the new ground(s) of rejection.

### ***Conclusion***

8. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
